

## **Regional Rural Children's Centre**

We are excited to give everyone an update on the building progress of the Regional Rural Children's Centre. For those that are new to our community this will be a multipurpose children's centre that will house the Bawlf Playschool, a Daycare and an After School program.

The land for this centre has been secured to the east of Bawlf School. The Battle River School Division has submitted an application to the Provincial Government for a modular building that will house a portion of the project. A decision will be made by June 30, 2009 in that regard.

If we are awarded the modular, two of the three programs could be set up as early as fall 2009. The committee is committed to move ahead with a stick-built project by July 2009 if we are not awarded the 2009 modular. If we go ahead with a complete build, we anticipate turning dirt by spring of 2010.

We have been excited to see the interest that has been generated about the project from the Bawlf community and the surrounding areas. Thank you to all who contributed thus far and helped us to move this project forward.

If anyone is interested in helping out in any way for this project please contact:
